

Adam Kruschwitz

Full stack web developer leveraging technical support background to work efficiently in small teams. Recently earned a certificate in full stack development from UC Berkeley's full stack development bootcamp with an A+ average. Known among staff for strong communication and problem solving.

EXPERIENCE

ZL Technologies, Milpitas, CA — Support Engineer

SEPTEMBER 2019 - SEPTEMBER 2021

Worked with IT professionals in fortune 500 clients to triage and troubleshoot issues with ZL's records management platform. Built and maintained SQL queries for high volume, high security production environments.

FixIT Shop, Ithaca, NY — Computer Technician

SEPTEMBER 2017 - JUNE 2019

Worked with customers to identify computer hardware and software problems. Provided cheerful and informative customer service with a focus on teaching users the basics of computer troubleshooting.

EDUCATION

UC Berkeley, Berkeley, CA — Bootcamp Certificate

SEPTEMBER 2021 - DECEMBER 2021

Completed the UC Berkeley full stack web development bootcamp with an A+ academic average. Developed a variety of MERN stack web applications alone and with small development teams.

Ithaca College, Ithaca NY — Computer Science (BA)

SEPTEMBER 2015 - JUNE 2019

Teaching Assistant for Human Computer Interaction, learned general CS principles including data structures, algorithms, machine learning, and advanced web development using Flask stack.

PROJECTS

Teachback — Tutorials for development teams

Teachback is a web platform where development teams can create and run through markdown tutorials to demonstrate new technologies and show off their work. Currently in development with myself and Mehdi Safari.
